

Sustainable Purchasing Policy

We believe it is important to continuously review the effect of our purchasing practices. We aim to purchase products which are low polluting, recycled, ozone friendly, energy efficient, reusable, durable, not tested on animals, purchased in bulk wherever possible to alleviate unnecessary packaging.

We commit to using eco labelled cleaning products to provide our cleaning services and promote eco friendly and recycled consumable products to our clients.

We will only buy supplies when necessary and minimise the amount of materials i.e. stationery, office equipment, furniture consumed.

To enable the implementation of our sustainable purchasing policy Accelerate will:

- Inform all relevant suppliers of goods and services of this policy and Accelerate 's environmental commitment.
- Seek information from relevant suppliers about the environmental effects of products and services that they supply.
- Put in place systems to ensure that the policy is effectively implemented by all staff.
- Review this policy every year or as and when necessary

Signed on Behalf of the Directors

Mr Gary Morgan
Managing Director
